

Does a rise in domestic yields travel with appreciation?

Absolute-yield intuition | A common scale makes country differences visible

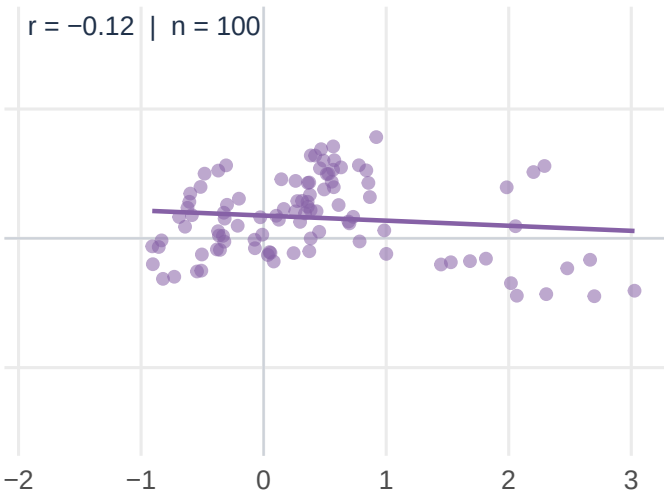

United States

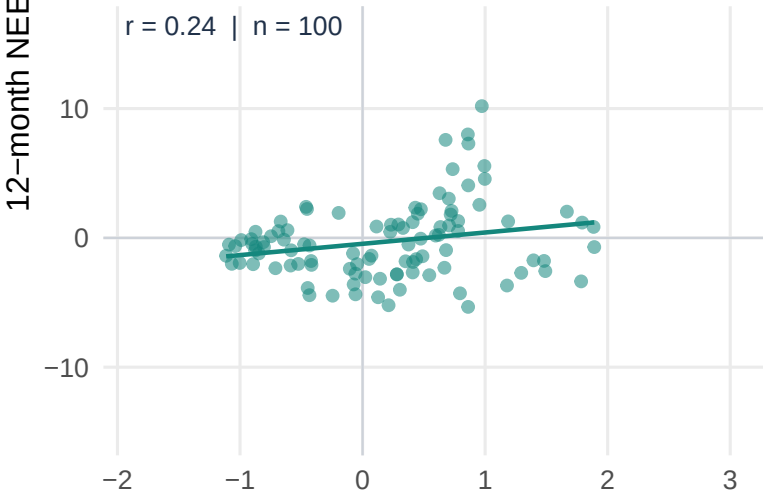

Japan

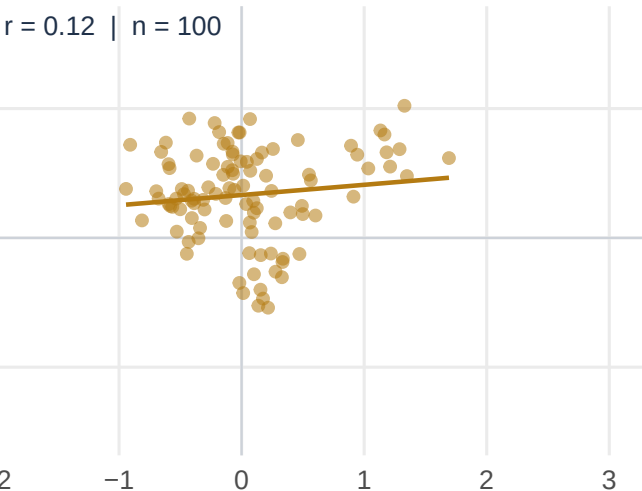

United Kingdom

Canada

Switzerland

12-month change in domestic 10Y yield (percentage points)

Source: OECD and BIS; author calculations. January 2018–April 2026.
Each dot is a month. Lines are descriptive OLS fits; overlapping 12-month windows are not independent.
